INTRODUCTION

Background

The Municipal Land Reutilization Law (City of St. Louis) was established by Revised Statutes of Missouri (RSMo.), Section #s 92.700 to 92.920. RSMo. Section #92.875 created the Land Reutilization Authority (LRA) for the management, sale, transfer and other disposition of tax delinquent real estate acquired by virtue of the foreclosure of the liens for delinquent real estate taxes. The statutes also authorize the courts to order the Sheriff to advertise and sell (or attempt to sell) the subject property at public auction, in an effort to recover the delinquent taxes and incurred collection costs, before turning any unsold property over to LRA.

Purpose

The objectives of this observation and review were to determine if:

- Land sales transactions and proceeds were accurately recorded and reported.
- Land sales proceeds were adequately safeguarded.
- Land sales process was performed in compliance with applicable Missouri State Statutes, and with applicable policies and procedures of the City of St. Louis and the Sheriff's Office.

Scope and Methodology

The review was confined to evaluating the tax delinquent land sales process for LRA Suit #145, which was conducted on June 22 through June 24, 2009. The procedures included inquiries of management and staff, observation of relevant processes, and reviews for compliance with policies and procedures, as well as applicable laws and regulations. The related controls were tested on a limited basis, prior audit observations were followed up and other procedures were performed as considered necessary

The fieldwork was completed on July 29, 2009.

Exit Conference
